

FuelsEurope Welcomes Parliament Vote Advancing Smarter Sustainability Rules

Brussels, 13 November 2025:

The European Parliament's vote on Omnibus I is a key step towards regulatory simplification. FuelsEurope welcomes the European Parliament's agreement on Omnibus I, which marks an important milestone in advancing towards a simpler corporate sustainability framework in the EU.

The Parliament's position addresses many of the practical challenges faced by companies in the implementation of the Corporate Sustainability Reporting Directive (CSRD) and the Corporate Sustainability Due Diligence Directive (CSDDD). The targeted amendments have sent a strong signal in favour of smarter regulation, ensuring

that sustainability reporting and due diligence obligations remain both ambitious and implementable.

As the legislative process now moves into interinstitutional negotiations, FuelsEurope encourages policymakers to continue reducing unnecessary complexity and overlaps.

Liana Gouta, Director General FuelsEurope underlined *"A well-calibrated regulatory framework is essential to enabling European industry to continue investing, innovating, and contributing to the green transition."*

- ENDS -

FuelsEurope, the voice of the European fuel manufacturing industry. FuelsEurope represents, within the EU institutions, the interest of 40 companies manufacturing and distributing conventional and renewable fuels and products for mobility, energy & feedstocks for industrial value chains in the EU.
